

OPENING DOORS IN ASIAN MARKETS

RBC Life is expanding our product line in Asia. With our new real time shipping policy, we are able to ship more products, including liquids and skin care, to the Asian Pacific.

On Friday, May 20, 2011, the following countries will no longer be charged a flat rate. Shipping and handling fees will be calculated for each NFR order and displayed in real time, so you will know your fees right away at time of checkout.

- Singapore
- Brunei
- Taiwan
- Hong Kong

Fees are based on weight and destination, so orders can be as large, or as small as you like. Plus, you will start seeing more of the RBC Life products you want, not previously offered due to shipping constraints.

This is one more way RBC Life is working to provide you with Better Nutrition for Better Health. Stay tuned for future developments and to learn more about new product offerings at www.myRBCLife.com/NFR
