

# NEUROBRIGHT®

Think, Learn, Remember\*

Item #1650 - 120 vegetable capsules

**Directions:**

Take 2 capsules twice daily.

Supplement Facts	
Serving Size: 2 Capsules Servings Per Container: 60	
Amount Per Serving	% Daily Value**
NeuroBright Blend	805 mg †
Phosphatidyl choline (from lecithin), turmeric extract, rhodiola rosea (root), citrus bioflavonoids, bacopa monniera extract, ginkgo biloba (leaf) powder, quercetin, phosphatidyl serine, n-acetyl cysteine, resveratrol (from Japanese Knotweed) (root), co-enzyme Q10	
Microhydrin (a Proprietary Blend)	200 mg †
Potassium carbonate, potassium citrate, magnesium ascorbate, calcium silicate, purified-ionized water, silica, calcium hydroxide, magnesium sulfate, mannitol, sunflower seed oil	
† Daily Value not established **Percent Daily Values are based on a 2,000 calorie diet	

**Other Ingredients:** Vegetable capsule (hypromellose, water), magnesium stearate

**Key Benefits:**

- Support and defend healthy brain function\*
- Supports the ability to think, learn and remember\*
- Blended for cellular health and longevity\*

**What is it?**

NeuroBright is a patented combination of cognitive support nutrients, potent herbs and the exceptionally powerful antioxidant, Microhydrin.

**The Power of the Mind**

Mild memory problems associated with aging are a top health concern. Regardless of age, a sharp mind affects virtually all aspects of life. NeuroBright is a unique blend of antioxidants, herbs, and whole food nutrients designed to nourish and support health brain function.

**NeuroBright contains:**

**Microhydrin** – Our research shows that this potent antioxidant acts as a synergist with the cognitive support nutrients found in NeuroBright.\* It offers protection from free radical damage, which the brain needs for optimal health.

**Phosphatidylserine** – This special type of fat has shown remarkable health benefits when its supplemented into our diet. It supports cognitive health, a positive mood, and may increase mental acuity during times of stress.

**Rhodiola rosea** – This herb has been shown to enhance physical and mental performance.\*

**Bacopa** – This has been used in Ayurvedic medicine for thousands of years to enhance learning, memory and concentration.

**Curcumin** – This is the primary component of the Indian spice Turmeric, which is known to be a powerful antioxidant.\*

**Citrus bioflavonoids** – Flavonoids are compounds that are widespread in our produce, particularly in citrus fruits and are well-known to provide antioxidant benefits.\*

**Ginkgo Biloba** – This popular plant is also known as the memory tree. Ginkgo supports mental clarity and normal memory function.\*

**Quercetin** – Research shows that it protects the brain cells from the oxidative damage that might otherwise lead to a decline in mental acuity.\*

**Phosphatidylcholine** – This fat is a major component of cell membranes, even brain cells. Its decline with age may be a factor in age-related memory loss.

**N-acetyl cysteine** – NAC is an antioxidant that supports memory and learning. It is a precursor to glutathione, one of the body's most protective compounds.\*

**Resveratrol** – Studies suggest that resveratrol may reduce the plaque in the brain that is associated with age-related cognitive impairment.\*

**Co Q-10** – Brain levels of Co Q-10 begin to decline at age 20 and low levels tend to be associated with cognitive decline.\*

This formula is so impressive, the head researcher who studied it for several months said that, not once in his 25-year tenure in this specialized field, have test subjects improved so dramatically from a natural, safe product.
