The Secret is the Fresh Olive Leaf

Our olive leaf complex is dramatically different from the powdered olive extracts sold in health food stores.

We capture nearly 10 times the antioxidant power of other olive products. Our olive trees have been carefully selected to provide the most beneficial profile of active compounds. They are grown using only organic fertilizers and pristine spring waters. Leaves are picked at sunrise and extracted within hours by a proprietary process that preserves the bioactivity of the olive leaf.

Our unique olive leaf is then combined with Aloe vera, KonaRed™ fruit, green tea and other natural ingredients to create OliViva - an energizing beverage with unsurpassed health benefits.
