Key Benefits:
• Supports the immune system*
• Increases energy levels*
• Supports the cardiovascular system*
• Powerful antioxidant with 119,000 ORAC score

What is it?
OliViva is an antioxidant drink made from freshly harvested olive leaves, Aloe vera, and KonaRed™ fruit. Our fresh olive leaf is processed within hours to retain the naturally active polyphenols and phytonutrients.

What is it formulated to do?
OliViva provides the incredible antioxidant power of fresh olive leaf along with other legendary botanicals to give you a healthy boost of energy, stronger immunity, and the benefits of one of the most heart protective nutrients available.*

Who may benefit?
Anyone can benefit from this unique nutritional beverage. It is safe for anyone, regardless of age or health status.

How it is used?
Simply drink 1 ounce of OliViva a day, every day for maximum benefit. Users have found that they can drink OliViva any time of the day and even add it to fruit juice or a smoothie for a quick and delicious nutritional boost.*

The Highest Antioxidant Value
OliViva is a powerful antioxidant drink that possesses an incredibly high ORAC score! ORAC is a measurement of how well an antioxidant helps your body protect itself from free radical damage. OliViva's ORAC is over 119,000 - higher than most other nutritional juices on the market.

Antioxidants scavenge compounds called free radicals that damage our healthy cells. It is essential to our health, vitality and longevity that we consume an abundant supply of antioxidants on a daily basis. Modern food practices have dramatically reduced the amount of antioxidants in our food supply, and it is now estimated that less than 10% of us are consuming the levels of antioxidants we need for optimum health.*

In today’s fast paced world, our need to supplement with antioxidants has never been higher. OliViva is a wonderful addition to the diet of anyone who leads a stressful life or who desires increased vitality and immune support.

With OliViva, you can consume 1 ounce of juice and receive the antioxidant potency of more than 10 servings of fruits and vegetables! When choosing a nutritional juice for your family, it makes sense to choose the one with the highest antioxidant power - OliViva.

Science-Backed Health and Wellness Solutions
True to our heritage, we provide solutions that advance and sustain natural health and wellness. RBC Life has 25 years of research experience. We combine the best of nature with rigorous science to develop innovative products with effective results. At RBC Life, we pride ourselves on delivering solutions in the context of Personalized Nutrition.

Item #5000 - 30oz

Historical Benefits of Olive Leaf
Throughout history, olive oil and olives were regarded as staple foods for health and longevity, but the leaves were largely dismissed. However, some early physicians were curious enough to make a tea with the leaves and give it to patients to see if it had health benefits as described in the Bible. The olive leaf proved to relax blood vessels creating better blood flow to the body and the brain. As a result, people experienced better mental clarity, cardiovascular support, and a sense of well-being.

Today the olive leaf has been extensively researched for its health promoting properties. Benefits of this incredible leaf include:

- Provides powerful support to the immune system*
- Powerful antioxidant properties combating the effects of oxidative stress*
- Beneficial for heart health*
- Aids in the maintenance of healthy cholesterol levels*
- Aids in the maintenance of healthy blood sugar levels*
- Helps balance healthy intestinal yeast*
- Enhances energy and promotes a greater sense of well-being*

The Secret is the Fresh Olive Leaf
The key ingredient in this nutritional powerhouse is our fresh olive leaf complex which is dramatically different from the powdered olive extracts sold in health food stores. Our fresh olive leaf contains 10,465 ORAC units per gram compared to only 1,255 units per gram of traditional, dried extract.

How do we capture nearly 10 times the antioxidant power of other olive products? We start with olive trees that have been carefully selected and shown through DNA testing to provide the most beneficial profile of active compounds. Our olive trees are grown using an all-natural process that utilizes only organic fertilizers, pure rain, and pristine spring waters. When it is time to harvest the leaves, they are picked at sunrise and extracted within hours by an all-natural proprietary process that preserves the nutrients and bioactivity of the olive leaf. This is all done on a single property, so there is no storage and no drying. You end up with a drink containing only fresh, alive leaves with all of their beneficial antioxidants and phytonutrients intact!

Our unique olive leaf is combined with Aloe vera, KonaRed™ fruit, green tea and other natural ingredients to create OliViva - a beverage with unsurpassed health benefits.
